ADRIAN BECHLY

A relative newcomer to motorcycle sport is Adrian Bechly. It all started for him when he went to see the Malaysian Motor Cycle Scramble Championship last November. He had just bought a bike (or all the necessary parts thereof) which he had intended to do up and sell. However he caught that mysterious disease known only to the scrambler.

Since commencing scrambling in January this year he has gained for himself an assortment of trophies. At the only grass track he has attended as a competitor, he took out a 1st, 2nd, and 3rd, position and was placed 3rd Overall for the day.

After his first scramble which saw him with the start of his collection of trophies, he broke the frame of his 350cc A.J.S. Then came a time when little boxes, little pieces, and things invaded his car port, but emerging from all this, after replacing most of his bike, came Adrian and his Scrambler. The motor of this I believe previously belonged to John Woods.

Adrian has done well so far in the Castrol Scramble Series and expects to do better yet as he gains more experience. Although he missed Round 1 of the Series he has added 7 trophies to his collection in Rounds 2 & 3. He still has 9 months before returning to Australia to show his best on the track.

Motorsports itself, regard to the 4 wheel variety, was not new to Adrian. He was a member of the Claremont Motor Sporting Car Club, (Queensland), where he was Secretary/Treasurer, when it was newly organized. In motorkhanas and rallies he has had some experience.

With the Echo Enduro coming up it will be interesting to see his results. With such strong competition I think it will be a time when unexpected things will happen.

Good-Luck Adrian.

CHERYL CUST.
