RAAF Radschool Association Magazine Avalon Air Show Special Edition

The fabulous Avalon Air Show was on from the 1st to the 6th March, 2011.

Laurie Lindsay and I went along and Laurie took along his trusty little Kodak instamatic, a pocket full of cartridges and half a dozen flash cubes and we got some good snaps!!

This is how we saw it.

The Show was an excellent opportunity for Exhibitors to show their wares to prospective buyers.

See Page 1

It was the 90th anniversary of the RAAF and they were there in force.

Civilian Aircraft were there in abundance, some luxurious, some economy class, some old, some new.

See page 3

There were many military aircraft at the event, but the B1 bomber from the USAF stole the show.

See page 4

And what would a show be without Volunteers, but volunteering for what, that is the question.
