

Remembrances

2 Squadron RAAF Vietnam 1967 to 1971

Author Ken Marks - First impression limited to 1000 copies.

This history is framed around the memories of seventeen 2 Squadron Vietnam Veterans. Their remembrances are in chronological order. The chronology of significant events is included as well as nearly 200 *photographs and illustrations*. Each year contains annexes that include members who served during that year, tables of bombing BDA Statistics, Aircrew Sorties flown and more. The final Annexes contain Primary Source resources for academics and students alike. Anyone who served in the squadron, or indeed their relatives and friends would find this an exclusive insight into their “Persons” war.

Contributors include:
