New Menu

We've made some changes to the menu system, now you can find a topic, click it and it will open the info for you. This will make it a lot easier to read. After you've finished one topic and you want to return here, just click the "return to menu" link in your browser.

You can still read the whole Magazine the old way, just click Forward above.

Contents.

Topic	Link

Women's role in Air Force history. WRAAF's 16th birthday. WRAAF dining-in night, East Sale, 1967. WRAAF Officers - 1968.

Scootaville.

Scootaville has been run and all those involved have voted it a success. We raised \$25,000 for legacy, made the country previously unseen, met some lovely and very generous people, had fun with primary school kids - again in 2023. Work has already begun on planning for next year with the proposed route [HERE](#) though that relies on the availability of accommodation etc - we'll do a run out there soon to check things out. Next year's event will be on scooters instead of bikes, though we won't be using the 50cc Mopeds as originally planned for the trip we've realised the little Mopeds wouldn't stand a chance tackling outback Queensland's hills and distances. It was actually a God-send, we were forced onto Honda 125cc bikes, all of which did a superb job and although being on one flat tire, didn't miss a beat. Says a lot for Honda's engineering.

Next year we'll be onto bigger engined scooters which means you'll need a motor bike licence to be able to ride. There will be a limited number of supporter spots available. So - if you want a great time, want to meet a great bunch of people for legacy, start planning your leave, your time off, or whatever - now.

Ted Mac took a heap of photos and video of the 2022 trip, we'll have a story of the event in the next issue, in the meantime, Ted took while in Winton.

More later.

Buying a new car?

If you're contemplating buying a new car, we could save you thousands. The Radschool Association has done this by using brokers whereby you can purchase a car (your choice of make, colour, specs etc) at fleet discount prices.

One of our blokes made use of this facility recently and bought a Toyota Rav4 and saved thousands. You can't beat that!

To see further details, go to the Radschool Assoc home page ([HERE](#)) then click on "New Car Purchase".

Discounts.

Current financial members can now receive a 12% discount on the base rate of the day when hiring a car. If you're thinking of hiring a car or an SUV or a people mover, this could save you heaps. If you're a member, email [HERE](#) and we'll send you the promo code.

Errors

Our aim is to have this site error free – but that's probably impossible. But with your help I reckon we can get pretty close. If you see any punctuation, spelling, links that don't work, facts wrong etc, (no matter how small) please let us know so we can fix them.

Thankfully, Ken Morris, who lives over in the West, proof reads our print before it goes public and points out our errors. I can tell you!

Thanks Ken.

You can download the full magazine in PDF format [HERE](#).
It is a very large file, contains 246 pages and will take a while to download.

The margins have been set so you can print on both sides of the page.
