

Howdy all,

Unfortunately, due to the Omicron epidemic that is taking over the universe, we have had to delay Scootaville once again. Understandably people are nervous about travelling and many have indicated to us they are not keen to participate at this time so we had no alternative. Also, if we didn't, there is the possibility it could get worse resulting in a "shut-down" with the result people would have to cancel travel plans, leave arrangements, etc.

Queensland that did so well keeping Covid at bay up to Christmas has been inundated with Omicron with the result most of the State is now working from home. We did intend driving the route at the end of January to confirm everything but with most offices empty of staff there would have been no-one to see. Also, there was the possibility I could have caught the virus along the way and had to isolate for 2 weeks in some small outback town. No thanks.

As there is a huge amount of work involved in re-organising this event, we are not, at this stage, going to nominate a new time-table but will wait until things return to some form of normal.

We apologise for the inconvenience but it is out of our hands.
